About This Game

MORGAN LIVES IN A ROCKET HOUSE is an animated kids show about Morgan, a kid marooned on an alien planet light years from Earth. It follows the adventures of Morgan and his best friend Elliot as they play and have fun in the happy little village Morgan's ship crashed into many years ago.

MORGAN LIVES IN A ROCKET HOUSE in VR is home to Morgan's first VR episode: **PAPER PILOTS**. Morgan and Elliot want to fly planes but they know they can't because they're just little kids. Maybe they can make paper planes instead! But um... they can't remember how. Hopefully someone can teach them.
